rajesh vankadaru

Best mobile with in this segment, when compared with other compitators..

Verified Purchase

Audio comes with single  , volume is good.Back  is too good picture quality and its AI technology as well.Camera features slow moshion video recording, potrate short are good.Font  need to improve more images are over shared , but value for  Performance. It is a Good.. can handle nearly 10 to 15 apps .. background as well.Ui comes with hisos v.7.6.0(based on android 11) which is good. This os is look like funtoch os which is running in vivo mobile.Coming to battery.. it has 6000 mah battery.. which is huze. But I noticed a little battery heat on conteruse watch of YouTube for 4 hrs. Which is normal.Ram and storage is also good for this price in market.. hope this techno Spark.. will be really a spark riser in mobile industry..Hoping the best , value for money product in coming future.. all the best.. thankst's my honest review.. hope his will help for others..
